

Perfect Finish Painters

May 25, 2026

Open findings

Every audit-flagged item that has not yet been closed, dismissed as false-positive, or marked won't-fix. Sorted by severity, then by age. Older items at the top of each severity band are the ones to think about next.

SEV	ID	TITLE	PAGE	FIRST SEEN	STATUS
LOW	seo.meta-description-length.various	9 meta descriptions out of 130-160 char range	various	2026-05-250d	OPEN
LOW	seo.broken-external-link.unknown	1 broken external link (likely Yelp or Google Business short URL)	unknown	2026-05-250d	OPEN

Recently closed

Findings closed since the most recent audit. Each row shows what shipped the fix.

SEV	ID	TITLE	CLOSED	COMMIT	NOTE
CRITICAL	perf.ttfb-slow.global	TTFB 2296ms — every page dynamic due to await headers() in root layout	2026-05-25	78ec959	Multi-root-layout refactor: moved English/Spanish routes into (en)/(es) groups, deleted headers() call. 59/59 pages now static.
CRITICAL	schema.localbusiness-address-missing.global	346 structured-data errors — missing address on LocalBusiness + missing provider on nested Services	2026-05-25	78ec959	Added PostalAddress + provider @id refs on nested Services. ~300 of 346 errors closed.
CRITICAL	content.thin.city-pages	26 of 50 pages under 500 words — city template too sparse	2026-05-25	78ec959	Added 3 localFaqs per city (19 cities) + FAQPage schema. ~450 -> 700+ words each.
HIGH	content.thin.our-work	Our Work page is almost entirely images and links	2026-05-25	78ec959	Added 250-word prep/prime/paint/protect section.
HIGH	content.thin.blog-index	Blog index page lacks substantive intro copy	2026-05-25	78ec959	Added 150-word intro between hero and post grid.
MEDIUM	security.csp-missing.global	Content-Security-Policy header missing	2026-05-25	78ec959	CSP header added in next.config.ts with whitelisted third parties.
LOW	trust.vercel-analytics-disclosure-missing.privacy	Privacy policy doesn't disclose Vercel Analytics	2026-05-25		Vercel Analytics added to Information We Collect + Who We Share With sections.
LOW	content.blog-inline-images-missing.various	4 of 5 blog posts render only hero image with no inline body images	2026-05-25		Added 2 captioned Image figures to each of 4 blog posts (hero + mid-content).

Audit history

DATE	AUDIT ID	TYPE	SCORE	+ NEW	~ REFRESH	R REOPEN	X AUTO-CLOSE
2026-05-25	sjtech-full-2026-05-22	full	83	12	0	0	0

Dismissed

Items the audit flagged that we deliberately do not plan to fix -- either false positives in the audit tooling, or intentional design choices.

SEV	ID	STATUS	REASON
MEDIUM	a11y.alt-missing.gallery	FALSE-POSITIVE	Audit tool counted fill-mode images that don't accept width/height attrs as missing. OurWorkGallery.tsx already has alt on every Image. Re-verify on next audit run.
MEDIUM	a11y.dim-missing.gallery	FALSE-POSITIVE	Same as alt-missing: fill-mode images don't take width/height attrs. Layout reserves space via parent positioning, not the Image element.

Ledger source: audits/findings.json. Managed by the **audit-tracker** skill — re-run tracker.py report-pdf after each audit or fix batch to refresh this PDF.
